RE: Patient: **Linda Davis**
Date of birth: 1948-06-22

Dear Colleague,

I am writing to refer the patient named above to your practice.

I would value your assessment of the following problem: Recurrent urinary tract infections. The urgency of this referral is routine.

A summary of recent visits, the current medication list, and recent results accompany this letter. I would appreciate a note with your findings and recommendations.

Sincerely,

Colleen Jensen, NP
